Contact data Email: heinz@huber-consulting.world

General (Ret) Heinz HUBER is a highly recognized armed forces professional in international and national security and defense policy making with a strong background in strategic business development, total-quality management, project management, research and development as well as coaching and training. His experience within foreign policy, diplomacy and especially the armed forces sector has helped him to develop very profound capabilities in strategic and operational decision-making, civil-military cooperation, problem solving and leadership. As an acknowledged expert in delivering substantial analysis to executive boards and high-ranking decision makers, he is the byword for target oriented managerial skills in the broad field of the defense and security business. Strong social competences and intercultural communication skills, as well as an excellent international network round off his proficiency.
